

# RENEWABLE ENERGY CERTIFICATE

Certificate No. 2023-4955-0001

We hereby confirm  
Oskar Frech GmbH & Co. KG  
Schorndorfer Straße 32  
in 73614 Schorndorf

In cooperation with:

the purchase of 100% green electricity from renewable energy plants with statutory environmental standards.

The guarantees of origin are issued towards renewable energy plants which comply with statutory environmental standards whilst being connected to the European grid. Furthermore, they fulfil the criteria for KlimalInvest ÖKOSTROM by KlimalInvest Green Concepts GmbH.

Oskar Frech GmbH & Co. KG achieves climate neutrality with the continuous cancellation of the green electricity proof of origin and with the offset of upstream emissions which arise, inter alia, during the construction of the plants. In the period from 1st of January 2023 to 31st of December 2023 an amount of up to 1.800 MWh of electricity is neutralized by 100% ecological and climate-neutral electricity from renewable energy.

Compared to an electricity generation through energy sources constituting the German energy mix at the time of issuing this certificate, up to 563 tons of CO<sub>2</sub> emissions will be saved through purchasing and using renewable energy. This amount also includes the offset of upstream emissions.

The cancellation in accordance with § 30 Guarantees of Origin Implementing Ordinance (HkRNDV) is carried out and confirmed by the registry of the German Environment Agency.
